REQUEST FOR CORRECTION OF FILING RECEIPT

Applicants are returning herewith for correction the filing receipt in the above-identified patent application. The filing receipt includes two errors: (1) it incorrectly lists the priority information claimed in connection with the application, and (2) it incorrectly shows the title "Improvements in Luminescence Assays" as "Luminescence Assays".

In connection with the error in priority information, applicants herewith submit a copy of the first page of applicants' patent application, as filed January 23, 2001, which

correctly identifies the priority applications. The brief description of domestic priority data on the filing receipt should read as follows:

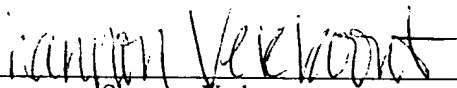

This Application is a continuation of PCT/US99/24707, filed October 19, 1999 and claims benefit of 60/104,964, filed October 20, 1998 and claims benefit of 60/126,661, filed March 29, 1998

In connection with the error in the title, applicants herewith submit a copy of the transmittal for applicants' patent application, dated January 23, 2001, which correctly shows the title as **"Improvements in Luminescence Assays"**.

Accordingly, applicants respectfully request that the filing receipt be corrected to show the priority data information as listed above and the correct title. Please mail a corrected filing receipt to applicants' undersigned attorney.

CERTIFICATE OF MAILING

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Commissioner for Patents, Washington, D.C. 20231 on January 25, 2002.

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

RESPONSE TO REQUEST FOR CORRECTED FILING RECEIPT

Title of Invention

In response to your request for a corrected Filing Receipt, the Office cannot comply with your request because:

- ☐ The articles such as "a," "an", and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- ☒ The words "new," "improved," "improvement of," "improvement in", or "improvement relating to" are not included as the first words in the title of an application because a patent application is, by nature, a new idea or improvement. See MPEP 606.
- ☐ The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- ☐ Superscript and subscript are not possible. These characters will appear on the same line.
- ☐ The title appears on the filing receipt in sentence case for publication in the Annual Index of Patents.
- ☐ The title of the invention was captured as provided by applicant on the first page of the specification. An amendment is needed to make this change.
